

CALL TODAY FOR YOUR FREE VIDEO

See for yourself how the FS-2500 oil by-pass filtration system will help you generate substantial cash savings. Plus, get your copy of third-party test results showing the FS-2500 to be highly effective at controlling excess soot from cooled EGR.

Dear Owner-Operator,

- Cut oil drain costs?
- Substantially reduce – even eliminate – soot and sludge?
- Lower your engine maintenance costs?
- Extend the life of your engine?

Yes. Yes. Yes. And yes.

As a fleet owner or manager the FS-2500 oil by-pass filtration system will help you do all this – and more.

And best of all? Customer testimonials such as those on the outside of this mailer – as well as many others we have on file – offer you convincing evidence that the FS-2500 does everything I say it will do. But that's not all.

Give me a call today at **888-440-9056** and I'll send you a FREE video so that you can see with your own eyes just how well the FS-2500 works. You'll also see the FS-2500 in action against 2 well-known competitors. (Bottom line? We kicked major butt. Get the video and see for yourself.)

Southwest Research Institute (SwRI) test results show FS-2500 highly effective at removing soot.

What's more, we can now present you with scientific proof of the FS-2500's effectiveness. This proof is the result of extensive testing performed by SwRI, a leading independent research and development organization. Key findings of these recent tests show that the FS-2500:

1. In the first three minutes of a twenty minute test removes particles 3 microns in size at an efficiency rate of 99.58%.
2. At 20 minutes removes particles 3 microns in size at an efficiency rate of 99.63%.
3. Removes 100% of soot it comes in contact with down to 0.7 micron in size.

FS-2500 a "must" for new diesel engines

The FS-2500's effectiveness at removing soot is particularly noteworthy. Especially in light of the new emissions standards set to go into effect in October. As you know, the technology chosen by most engine makers to meet the stricter levels is cooled exhaust gas recirculation (EGR). But one problematic byproduct with cooled EGR is excess soot.

On the other hand, once you've installed the FS-2500 you won't have this problem anymore. SwRI's test results absolutely confirm this fact. Take a first-hand look and see for yourself. Call me for your free video today at 888-440-9056 and I'll also send you a copy of the complete SwRI test results.

Standing pat? Considering the purchase of a late model used vehicle?

Maybe you just recently purchased a new rig. Or maybe your plan is to hold on to the truck you're currently driving for another year or two. Or it could be that you're looking to trade in your existing truck for a late-model used vehicle.

Whatever your situation might be, the FS-2500 is a valuable tool you can use to control repair and maintenance costs and reduce wear to your engine.

You owe it to yourself to take a closer look at what the FS-2500 can do for you and for your bottom line. Call me today for your free video and additional information – including details on pricing and our incredible 125% MONEY-BACK GUARANTEE.

Why not pick up the phone and give me a call right now? I guarantee you'll be making a smart decision.

Sincerely,

RANDY FIELDS
CEO, FILTRATION SOLUTIONS WORLDWIDE

P.S. When you watch the video you'll see the FS-2500 quickly make pitch-black, sludge-and-soot-filled oil so clean you can see through it! What's more, if you act quickly you can still get in on an exciting promotion we currently have underway for new customers. Call me for your free FS-2500 demonstration video today: **888-440-9056**.

Owner-Operators On The Benefits Of Using The FS-2500

“...I change my oil every 60,000 miles and I couldn't be happier.”
“...I have religiously changed my oil every 10,000 miles for 31 years, that is, until I got my FS-2500. Now I change my oil every 60,000 miles and I couldn't be happier. My oil samples are absolutely perfect and my oil at 60,000 miles looks and feels like oil with 1,500 miles on it....If you want to protect the huge investment that you have in your engine, and save thousands of dollars a year on maintenance, call Filtration Solutions today, the FS-2500 really works.”

James “Red-Eye” Stewart - Merrill, WI - Leased to B&D Motors, Inc.

“...has saved me nearly \$13,000.00 in oil changes...”

“Over the years the FS-2500 has saved me nearly \$13,000.00 in oil changes and countless hours of downtime at truck stops waiting in line for an oil change. The FS-2500 has allowed me to drive 2 trucks over 1,750,000 miles without rods and mains or an overhaul, now that's pretty good performance...Call Filtration Solutions today and order a FS-2500 of your own, it's the best investment in the trucking industry today.”

James Rawlings – Dallas, Texas – Leased to the Celadon Group
